

<b>Model Name:</b>	ePBX-100A	<b>Object:</b>	<input type="checkbox"/> H.W.	<input checked="" type="checkbox"/> S.W.
<b>Subject:</b>	Release firmware of ePBX-100: Aapp_100.app			
<b>Release content</b>				
<b>Bug fixed</b>				
None				
<b>Feature and Function added</b>				
None				
<b>Configuration item changed</b>				
None				
<b>Note</b>				
<p><b>1. First formal release</b></p> <p>The functions are almost same as ePBX-100, except voice mail function. ePBX-100A has a voice mail system and it can store voice mail within itself, so user can access voice mail by phone set directly. It also can let user records personal greeting for no answer or busy..., etc.</p> <p>The feature code for voice mail is: *98.</p>
